academy. POST-OFFICE CONTRACTS.

How They Work in Virginia-Sensible Remarks of "One Who Knows."

The present system of reduction in the Post-Office Department won't pay. It is a false my," exclaimed a well-known citizen and Foliatal office-holder of Alexandria yesterday. " It is perfect nonseuse. This talk about the immerse saving in giving out the contracts for carrying the mails is all a sham. There has been, of course, a reduction in the rates for performing the mail service all through the State of Virginia; but before the reduction took place the service was done at the lowest possible figure. Take, for example, that little mail service between the Theological Seminary and Alexandrin. It is only three miles, and the service is six times per week. Last year the contract was awarded at \$250, and was given to the same man that has been carrying the mail on this route for twenty years past. But this year the contract was awarded for \$147."

"How did that happen?" asked THE REPUBLICAN reporter, very much interested. "Well, you see, under the system of awarding the contract to the lowest bidder without regard to feasibility of his being able to carry out the con-

contract, and allowing bidders residing all over this country to bid for a mail service in any portion, this contract was awarded to a mail contractor from Kentucky." "What was the consequence?" "Why, he came over to Alexandria soon after

nd slept one night with the old man who had his contract before, and persuaded him to take on his bid. Now, you see, that is all wrong. The Government goes on the principle that it will pay a fair equivalent for services rendered. But in the case of mail conincis, in many of them the contractors are unerpaid. In one sense, the Government cannot help this, as the law requires the acceptance of the lowest bid. The trouble lies in the system of sub-"ling. If all the bidders were compelled to fulfill the service required in their contracts themselves there would be no such ridiculous bids put in. But | T. & P. income...... hey get it away from those who have their capital avested, and they are compelled to take the | Keokuk ... work at starvation rates. The system of subletting should be abolished. This Government is illing and able to pay for all services rendered. hen again contracts for mail service should be from to the citizens of the State where their service lies. Now isn't it ridiculous that this little mail contract at Alexandria should be awarded to St. M. & Man a citizen of Kentucky? It is absurd; that is bil there is about it," and the old man went off thowly, shaking his head.

THE MARY WASHINGTON.

The Reason of Her Detention Yesterday-The following communication from In-Specior Saville shows the exact condition of the billers of the Mary Washington and fully explains the reason of her detention yesterday, which was a decided disappointment to many who had an-

to maged steamer: WASHINGTON, D. C., June 22, 1881. T. H. TROTH, esq.: Size Upon an examination of the boilers of steamer Mary Washington, made by us this day, we find a

Irak in the connections, and, before she can leave, the Hers must be blown out and leak properly repaired. Very respectfulty, JAMES D. LOWRY, WILLIAM O. SAVILLE, Local Inspectors Baltimore District.

Mr. E. S. Randall, who is the manager of these Coursions, states that all repairs will be made and the boat will resume her usual trips to-morrow harning, starting at nine o'clock.

Successful Washington Boys. The following Washington boys, who Were pupils at Professor Young's Emerson Institure, have successfully passed the examination for West Point: Edward R. Gilman, son of Colonel J. EXCURSION STEAMERS.

Inspection of Their Condition to Be Made-

How Many They Are Allowed to Carry. Mr. Saville, the United States steamboat inspector for this district, came over from Baltimore yesterday and made his appearance on the river front. The Mary Washington was taking on passengers for her usual trip down the river when the inspector went aboard. He made a general examination of her boilers, and concluded to order her in for inspection. There were about four hundred people on board, but they were told that the boat would not go down, and so they went on shore, most of them making the trip with the sidered the boiler of the vessel in a dangerous somewhere, and wanted to make a full examina- active. Mary Washington steamed down to Alexandria, where she will lay up for inspection. Mr. Saville is confident that the condition of the excursion boats here is of the very best, and has no hesitation in saying that they are perfectly safe. He says that there are no more trustworthy boats in use. The capacity of the vessels used for excursions on this river, as reported to the Treasury Department, is as follows: George Leary, 800; Excelsior, 1,500; Moseley, 600: Mary Washington, 500; Arrowsmith, diam quick. Melican man splend money, makee | 700. The other boats are engaged in regular passenger and freight business on the river and do not come under the head of excursion boats.

Preparing to Settle Down. Marriage licenses were issued by Clerk Meigs yesterday as follows: Oliver C. Morse, of Cleveland, Ohio, and Ella Jones, of Washington, D. C.; Joseph Cole and Elia L. Beul, of District of Coumnia; Robert Dinwiddie, jr., of New York city, and Cora L. Donn, of Washington, D. C.; Howard Burroughs and Alice Ferguson, of District of Columbia; John H. Coghill, of New York city, and Louisa Giles, of Washington, D. C.; John E. Webster and Josephine C. Holschuh, of District of Coumbia; Lewis Hugh and Becky Wallace, of Disrict of Columbia; William W. Cox and Emma L. McGill, of District of Columbia; Henry Hoban and Sarah M. Carter, of District of Columbia; Benjamin A. Farless and Emily Mirick, of District of Columbin; Sam, Crawford and Belsy Coleman, of District of Columbia, and John Fisher and Margaret Harris.

The Woodley Lane Bridge.

Messrs, O. C. Green, E. W. Clark, S. E. Middleton, Thomas L. Hume, F. E. Middleton, and lames Kernand yesterday called on the District Commissioners, asking that the bridge over Rock Creek, on the line of the Woodley road, which is only "last year, ch? There is only one thing that | now being repaired, be raised about twelve feet above its present level. Major Twining stated around the fool-killer among the brethren. To Patent Attorneys, Architects, and Engineers. I respectfully call your attention to TURCK'S DIA-MOND INDESTRUCTIBLE DRAFTING INK. This Ink has the following advantages over all other draft ing Inks heretofore used:

1. It produces a clean, even line, and does not "wash off," thus enabling the draughtsman to color his mechanical drawings without danger of the lines "running."

2. It being ready for immediate use, it obviates the tedious work of "rubbing up" ink, thus saving much

time and labor.

3. Being composed of indestructible material of a dense, black color, which makes a durable drawing and a perfect photographic copy.

4. The Ink containing no acid or alkall, prevents any danger of destruction to drawing utensis or paper.
I refer you to the U.S. Patent Office, General Land
Office, Interior Department, Architect's Office, Treasury Department, and all other Departments of the U.
